
$dC/dt = \alpha C(1 - C/C_{max}) + \beta\eta(t)$
C(t)
time (s)
realisation 1
realisation 2
realisation 3
C_{max}

Equation of state of the akashic field
w = <p>/<rho>
$\delta = A_{osc}/A_{min}$
1/3 (quartic limit)
separatrix $\delta = \sqrt{2} - 1$
